Docket No.: 10191/1239

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-7 (Canceled).

- 8. (Previously Presented) The car radio according to claim 13, wherein: the first axis of the labeling is rotated 45 degrees in relation to the direction of the longitudinal axis of the handset.
- 9. (Previously Presented) The car radio according to claim 13, wherein:
 the control keys include labeled elongated keys oriented perpendicular to the first axis of the labeling.
- 10. (Previously Presented) The car radio according to claim 13, wherein:
 a direction of a display on the screen is capable of being changed in order to adjust the screen to one of the plurality of operating positions.
- 11. (Previously Presented) The car radio according to claim 10, wherein: the handset includes a position sensor for changing the display on the screen.
- 12. (Previously Presented) The car radio according to claim 13, wherein: the handset includes a remote control unit for the car radio.
- 13. (Currently Amended) A car radio, comprising:
- a front panel <u>unit</u> including a horizontally positioned holder, the front panel <u>unit</u> including a radio circuit for receiving a broadcast radio program;
- a detachable handset capable of functioning as one of a control unit for a car radio and a telephone, the handset being inserted into the horizontally positioned holder in the front panel <u>unit</u> of the car radio and providing a control signal to the radio circuit;

a screen; and

control keys provided with a labeling oriented along a first axis that is rotated out of a usual vertical alignment of the handset in a mounted position by an angle between 30 and 60 degrees in a direction of a longitudinal axis of the handset in order to render the labeling easy to read in each one of a plurality of operating positions of the handset,

Docket No.: 10191/1239

wherein the front panel <u>unit</u> includes at least one further control key for controlling the car radio, the at least one further control key being positioned adjacent to the horizontally positioned holder.

- 14. (Previously Presented) The car radio according to claim 13, wherein: the handset includes at least one soft key for selecting stored radio stations, the at least one soft key being positioned adjacent to the screen.
- 15. (Canceled).
- 16. (Previously Presented) The car radio according to claim 14, wherein the stored radio stations are reproduced on the screen adjacent to the at least one soft key.
